Course Faculty

**Dr. Dimitris Borousas, MD
FEBU, Andrologist**

Dr. Borousas is a surgeon urologist, specialized in reconstructive urology and andrology.

He is a retired Master doctor of the Greek Navy, fellow of the European Boards of Urology, co-founder of Andro-Clinic, and an active member of the Sava Perovic Foundation (International Center for Corrective Genital Surgery).

He participates in many international conferences and training courses, as a speaker and trainer. He is a founding member of ESARA (European Society of Aesthetic and Reconstructive Andrology), a member of the Hellenic and European Urological Society (HUA and EAU), a member of the European and International Society of Sexual Medicine (ESSM and ISSM) and an active member of the International Institute of reconstructive Urology and Andrology "Sava Perovic".

His main specialization is penile and urethral surgery, cosmetic and reconstructive surgery of the external genitalia (Peyronie's disease, phalloplasty, congenital anomalies, sex redefinition), male and female urinary incontinence, male infertility and genital microsurgery.

**Prof. Vasilis Protopogerou, MD
FEBU, PhD Urologist Andrologist**

Prof. Vasilis Protopogerou is a Surgeon Urologist – Andrology Specialist, Assoc. Professor at Athens Medical School. He has been trained in Andrology in Guy's Hospital, London, by the famous Andrology Specialist David Ralph. He is interested in all Andrology conditions and penile diseases, as well as male infertility.

He is specialized in all Andrology surgeries, such as placement of penile prostheses, treatment of Peyronie's disease, phalloplasty (penis lengthening and thickening), microsurgery such as microsurgical varicocele repair and is one of the few doctors in Greece who performs microsurgical testicular biopsy (micro TESE) for spermatozoa retrieval.

He has conducted research on phalloplasty and his studies have been published in international journals. Also, he is one of the few doctors in the world who has performed clinical studies on the use of stem cells for the treatment of erectile dysfunction with very encouraging results so far.

He is among the co-founders of ANDROCLINIC and member of International Societies like ISSM (International Society of Sexual Medicine), ESSM (European Society of Sexual Medicine), EAU (European Association of Urology).

**Dr. Dimitris Triantafyllou, MD
Plastic Surgeon**

Dimitris Triantafyllou graduated from the Experimental School of the University of Thessaloniki, as well as from the Military Medical School (SAAS) with honors.

He was further educated in the United States at the Washington University of St. Louis, with which he maintains close relations and which he visits annually. He was director of Healthcare in the Dodecanese, curator in 424 General Military Training Hospital (GSNE).

He held the rank of Chief Medical Officer and the position of Plastic Surgery Director in 424 GSNE; he retired with the rank of General Chief Medical Officer (Colonel).

He has presented scientific papers and speeches in many conferences. He is a member of the Plastic Surgery company (www.herpas.gr) and a candidate Member of the American Society of Plastic Surgeons. He has been a Research Fellow and a Keynote speaker for the GENESIS Hospital for 10 years, as well as a Research Fellow of Euromedica in Rhodes.
